Our Goals & Objectives

- To improve the River from its source to its mouth, including its impacts on riparian and estuarine systems, wildlife habitat and marine life
- To promote public education concerning the historical significance, present condition and future of the River and its watershed
- To study the effect of domestic, commercial and agricultural uses of the River's resources
- To monitor and work to improve the River's water quality, quantity and flow characteristics.
- To observe and participate in the activities of public bodies responsible for the management of the River and its watershed.

Our Meetings

Riverwatch Meetings are held the first Wednesday of month at 6:30 pm at alternate locations in Fort Myers and LaBelle. Check out our calendar on our website for dates and locations as well as special events such as holiday parties and recreational outings.

Our Mission Statement

The Caloosahatchee River Citizens Association (Riverwatch) was formed as a nonprofit organization in 1995. It has been dedicated to the protection of the River and its watershed, through education and promotion of the responsible use of the river for the enjoyment of all people. In recent years, CRCA-Riverwatch has expanded its outreach to the community. With over one hundred members, Riverwatch continues to grow and expand its mission and message in Southwest Florida.

Anyone who can solve the problems of water will be worthy of two Nobel prizes - one for peace and one for science.. John F. Kennedy

What it Means to You

The Caloosahatchee River has a tremendous impact on SW Florida. The River contributes to the 2 billion dollar per year tourist industry. Whether people stop here to vacation or make Lee County their home, the Caloosahatchee has been a major attraction. If the river declines, it will have serious consequences for our economy and way of life.

What You Can Do

Visit www.crca.caloosahatchee.org for information on membership, newsletters, upcoming events and action alerts. Make a difference... join us in helping preserve, protect and promote one of the area's most precious resources - the Caloosahatchee.
